## **Professional Synopsis**

- Over 3 years 9 months of rich experience as a Full Stack Developer in the field IT industry, covering Website development, Back-end maintenance, and Front-end integration
- Proficient in Python, MySQL, and possess good knowledge on HTML, CSS, Typescript and Angular technologies
- Hands on experience with Python Back-end and Angular Front-end

## **Total Experience**

3 Years 9 Months

## **Experience Summary**

Organization	Designation	From	To
Saint Gobain	System Engineer	June 2021	Sep 2021
3 edge solutions	Junior Associate	May 2019	June 2021
Jeganeer Technologies	Trainee	December 2017	May 2019

## **Skill Summary**

- Comprehensive knowledge of Python Programming language and web development framework-Flask
- Hands on experience in MYSQL database for backend services
- Having knowledge in front-end technologies such as HTML, CSS, JavaScript, Bootstrap and Angular.
- Possess strong Analytical, Problem Solving and Communication skills
- Knowledge in developing websites using Angular
- Ability to work in a diverse team and in a fast-paced dynamic environment

## **Relevant Project**

### **Project-1**

**Project** : AIM

**Duration** : June 2021– September 2021

**Team Size** 5

**Role/Position** : System Engineer

**Project Description** : Website Design for AIM Project.

**Technical Environment** : Angular, HTML, CSS, Typescript, Bootstrap

**Responsibilities** : In this project I have done the following task in regular basis.

- Understanding and implementing the website design concept
